

KFIR SLONIMSKI

New York, NY • kfirstlon@gmail.com • 646-529-6851 • linkedin.com/in/kfir-slonimski • kfirstlon.github.io

AI & Automation Engineer with hands-on experience building data integrations, automated workflows, and AI-powered systems from idea to production. Experienced in connecting data sources and translating business needs into technical solutions.

EDUCATION

Yeshiva University, Sy Syms School of Business — New York, NY

May 2026

Bachelor of Science in Business Analytics

Allen Community College — Iola, KS

Dec 2022

Associate of Science in Mathematics

TECHNICAL PROJECTS

- **Work Hours Automation** — Built a Power Automate workflow that pulls work-hour updates from Microsoft Teams into Google Sheets, tracks weekly totals, and emails a scheduled summary each week, replacing manual timesheet tracking.
- **YU AI Student Experience App** — Built and deployed a production AI platform that integrates data from multiple university systems into a unified student experience, enabling students to retrieve information and complete tasks through AI-powered retrieval and agent workflows. Automated daily data refresh via GitHub Actions. *Stack: Python/Flask, LlamaIndex, Groq, OpenAI, Supabase.*
- **Lead-Intelligence Pipeline (client)** — A self-updating automation system that collects, deduplicates, enriches, and classifies records with an LLM, then scores each lead for sales priority. Served through a Flask CRM with an Ask AI chatbot and daily digests. *Stack: Python, Flask, Supabase, Claude + Groq.*
- **M&A News Alert** — Daily automation that pulls finance and M&A news, uses an LLM to score each item for relevance, and emails a digest, automating a previously manual monitoring process for an investment team. *Stack: Python, LLM scoring, agent workflow.*

WORK EXPERIENCE

AI Automation Engineer — ephelants, New York, NY

July 2026 – Present

- Build AI-powered automation systems and client-facing web products, from requirements and workflow design through deployment.
- Work directly with the founder and customers to scope requirements, prototype solutions, test workflows, and deliver projects end to end.
- Document workflows and usage guides, and support customers after launch so they can run the systems independently.

Data Analyst — Computer Generated Solutions (CGS), New York, NY

June 2025 – April 2026

- Supported international M&A due diligence and financial modeling for senior leadership on a cross-border acquisition.
- Delivered ESG and carbon-accounting analysis across multiple markets, applying AI tooling to accelerate turnaround.

Data Analyst Intern — SLAM, New York, NY

Summer 2024

- Analyzed engagement data and built KPI dashboards and reports for management.
- Built repeatable reporting workflows that sped up the team's recurring analysis.

LEADERSHIP & EXTRACURRICULARS

Founder & President — YU Artificial Intelligence Club

August 2024 – Present

- Founded YU's first AI club; ran technical workshops and "AI Pitch Night" (7 teams; judges from IBM, Meta, NYU, Touro).

Student-Athlete, Men's Soccer — Yeshiva University (NCAA), Allen CC, Eastern Oklahoma State

2021 – 2026

Sergeant — Givati Brigade, Israel Defense Forces

2015 – 2018

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, R

Automation & Integration: Power Automate, REST API Integration, ETL & Data Pipelines, Workflow Automation, Web Scraping & Data Enrichment, GitHub Actions, n8n

AI: Retrieval-Augmented Generation (RAG), Embeddings & Vector Search, Agentic Workflows, Tool-Calling, Prompt Engineering, LLM APIs, LlamaIndex, Whisper, XGBoost

Engineering: Flask, Next.js, React, Node.js, Supabase, PostgreSQL, Git, Vercel, Render

Data & Analysis: Pandas, NumPy, Power BI, Excel, ggplot2

Business & Finance: Financial Modeling, M&A Due Diligence, ESG & Carbon Accounting, Market Research, KPI Reporting

Spoken Languages: Hebrew (native), English (fluent), Italian (intermediate)

AWARDS & HONORS

Israel Impact Award, YU Innovation Challenge (2024) • Skyline Conference Academic Honor Roll, NCAA Men's Soccer (2024) • All-Kansas Academic Team (2022) • President's List, Allen CC (2021–2022)

Interests: Chess, probability puzzles, competitive soccer, self-directed AI research.
